

Agency Summary & Statutory Authority

The STEM Action Center was created through House Bill 302 of the 2015 Legislative Session to promote the expansion of student engagement in STEM activities. The STEM Action Center coordinates with state agencies as well as private industry to facilitate STEM-focused events to encourage student participation in STEM coursework and careers. Statutory authority is found in 67-823, Idaho Code, and the STEM Action Center budget request is found on page 6-115 of the Legislative Budget Book.
